

Dr. Eleonora Egidi
Western Sydney University
Australia

Dr. Egidi is a Lecturer at the Hawkesbury Institute for the Environment, Western Sydney University, Australia. Her research focuses on investigating microbial biogeography, plant-soil-microbe interactions, and the mechanism underpinning microbial responses to environmental stressors. She has led a number of initiatives to promote microbial ecology studies in Australia and China, and co-leads the Plant-Soil Research Chapters of the Australian Ecological Society. Dr Egidi is also committed to supporting and mentoring women in science and has actively participated in a number of Equity and Diversity programs during her academic appointments
