

Prof. Dr. Chiharu Nakashima

Phytopathology Laboratory, Graduate school of Bioresources, Mie University
Japan

Nakashima is a Professor of Phytopathology Lab. with 18 years of research and teaching in the Graduate school of Bioresources at Mie University, Japan (2004- to date), and an Adjunct Professor, Central Luzon State University, Philippines (2022-). In 2001, he graduated from Tokyo University of Agriculture (Ph.D.; Taxonomic study of Cercosporoid fungi) and spent the Post-Doc at Teikyo University of Science (2001-2002; Studies on Plant Disease Control) and the National Institute of Technology and Evaluation (NITE; 2002-2004; Fungal diversity in Asian Countries and CBD-ABS). In 2003, he received the Encourage Award of the Mycological Society of Japan with 'Taxonomic study of Cercospora and allied genera in Japan'. He is a councilor for the Mycological Society of Japan and the Phytopathological Society of Japan. He is also an Elected Member of the Executive Committee of the International Mycological Association. In scientific works, he has collaborated with Asian and European mycologists in the taxonomy/systematics of phytopathogenic fungi.
