

**Prof. Bin Li**

Shanghai Institute of Immunology, School of Medicine, Shanghai Jiaotong University  
P.R. China

Distinguished professor and doctoral supervisor of Shanghai Jiao Tong University, deputy director of Shanghai Institute of Immunology, Shanghai Jiao Tong University School of Medicine, Yu He Scholar, winner of the National Natural Science Foundation of China Distinguished Young Scholars Fund. He has been engaged in basic research on regulatory T cells for a long time. In recent years, outstanding achievements have been made in the research on the functional stability of Treg cells under inflammatory conditions, the post-translational modification of key transcription factors of T cell differentiation and broad-spectrum host factors, and the activity regulation of related enzymes.
