

**“Post AMC2021 Thai Mycological Biodiversity Survey”**  
**Foray on fungal diversity on micro and macro fungi at Wang Ta Krai**  
**6 August 2022**  
**Wang Ta Krai, Nakhon Nayok Province, Thailand (one-day trip)**

**Organizer by:** BIOTEC-NSTDA, Thailand

**Background:** Fungi and mushrooms are highly diverse and play key functional roles in tropical ecosystems. They are taxonomically, morphologically, and ecologically diverse as well as beautiful and interesting. Tropical forests are treasure-houses of high fungal biodiversity, but a major portion of this biological diversity is yet to be documented. Join us for a foray, hands-on workshop, and interactive dialogue exploring the magical kingdom of Thai fungi (true fungi) both micro and macroscopic aspects. We will organize a small group to go into the forest to look at the beauty of fungi and mushrooms and learn how to preliminarily identify common characteristics of macro/micro fungi.

**Typical foray schedule:**

07.45 – 10.00 Transport from BIOTEC to Wang Ta Krai in Nakhon Nayok Province

10.00 – 12.00 We sort ourselves into groups led by foray leaders who know the trails (field trip). After about two hours of foraging, we gather back with our fungal finds and showcase them on the specimen table, where we have a Fungal Identification Session (Distance: 2-3 km)

12.00 – 13.00 Lunch

13.00 – 15.00 ID Session: Another fun part of the day with the gathering and sharing of foray stories. An ID session/class, the specimen on table to discuss the fungal finds!

15.00 – 17.30 Transport from Wang Ta Krai to BIOTEC

**Field trips will include:** Tropical fungal collection, diversity, and basic identification. The sampling methods and forays allow researchers to explore ecological and taxonomic differences among fungi and locations.

**Registration fee:**

The cost covers round trip transportation from BIOTEC to Wang Ta Krai, ticket fee at Wang Ta Krai, water and food, collecting trips (boxes, plastic bags).

Registration Type	Registration fee	
	Government	Non-Government (+VAT 7%)
Thai Participants	1,000 THB	1,070 THB
Overseas Participants	50 USD	

**Remarks: For Thai participants, who require the receipts issued in the name of the individual, must pay registration fee included 7% VAT.**

**Payment Conditions:**

- 1% withholding tax has been exempted, as BIOTEC, NSTDA is a government organization.
- Registration fee is NOT included the money transfer fee charged by the intermittent bank and recipient bank, please note that;
  - A scanned copy of the local or international transfer receipt must be indicated the exact name of the registrants and e-mail to **AMC2021 conference secretariat**
  - If you already made the payment, you would receive a payment confirmation email once the transaction is completed. This may take up to 2-3 week since Bangkok Bank will need to make some additional checks before accepting the payment.
- Please note that the registration is completed when payment has been processed.
- Please note that the date on the receipt will be the date that we have received the payment.

**Payment Method:** Please make bank transfers payable to

Bank name: Bangkok Bank  
 Bank code: 080  
 Saving account name: National Science and Technology Development Agency  
 Account no: 080-0-000010  
 Branch name: Thailand Science Park  
 Branch address: 111 Phahonyothin Road, Khlong Nueng, Khlong Luang, Pathum Thani 12120 Thailand  
 SWIFT code: BKKBTHBK  
 QR Code for m-banking

**Application deadline: 20 July 2022**

**Number of participants: 30 persons**

**Participants should prepare:**

1. A 10x hand lens or small magnifying glass (or phone with good camera)
2. Hat and/or rain gear, sturdy hiking footwear, daypack
3. Camera with macro lens
4. Personal medicines
